***DETAILED ACTION***

1. The request filed November 16, 2005 for a request for continued examination (RCE) under 37 CFR 1.114 based on patent application 09/849099 is acceptable and an RCE has been established. Accordingly, claims 1-21 have been examined.
2. Independent claims 1 and 18 have been amended.
3. Dependent claims 19-21 have been amended.
4. Claim 8 has been canceled.

***Allowable Subject Matter***

5. Claims 1-7 and 9-21 are allowed.
6. The following is an examiner's statement of reasons for allowance:
7. With respect to the independent claims 1 and 18 the art on the record, namely the combination **Netegrity and Schneck discloses** most of the limitation of the recited claims **1 and 18**.  
However the art on the record namely the combination of **Netegrity and Schneck** does not disclose or suggest the following particular limitation which is now added on the previous independent claims 1 and 18.  
Evaluating whether there is at least one dynamic access control entry in a discretionary access control list associated with the second access request.
  - With regard to the independent claim 14, the art on the record, namely the combination of Netegrity and Schneck disclosed most of the limitation of the claim, However the following features were not explicitly disclosed by the combination of the references:

"the static maximum allowed access mechanism provides extensible support for application-defined business rules via a set of APIs and DACLs."

None of the prior art of record taken singularly or in combination teaches or suggests the limitations discloses in the independent claims 1, 14 and 18 with functional limitation recited above. Therefore the independent claims have been found to be novel.

For the reasons provided above, the amended independent claims **1 and 18 and the independent claim 14 are allowed.**

8. The dependent claims 2-7, 9-13, 15-17 and 19-21 being further limiting to the independent claims, definite and enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
